MRS.VIJAY PURI

ACADEMIC DIRECTOR, SFS

I am delighted to take this opportunity to take Shemford Furistic School Birpur to the journey. It is our belief that every child deserve the very best start in life and we make it our purpose to provide just that to all the children who enter our doors.

Shemford furistic school has a history since it started. A lot of change have taken place progressively in terms of academic and other activities. It has slowly grown in all levels. New structures have come up in order to accommodate the ever growing population of students.

We at Shemford Furistic School Birpur are proud of our achievements and tireless delivery of our high standard of education. The philosophy of the school is based upon the sound principles of discipline continuous growth and development, high standard and above all excellence.

At shemford furistic school, we welcome student of all abilities and culture. Our aim is to ensure that every student has a happy, rich and personalized learning experience. The student acquire rich values and the teacher let them blossom under their guidance. We believe in challenging our students to be the best! We have high expectations of behavior and attention.

" Education the mind without educating the heart is no education at all "

The purpose of education is not only to restrict itself to impact bookish knowledge but also include in graining of humanitarian values like integrity, honestly, loyalty, compassion and wisdom. I firmly believe that student must be taught how to think rather than what to think.

I am grateful to the school Administration and Management committee, all our administrative and academic staff who have given their valuable support all these years. The support of parents has also been paramount in achieving high standard of education at Shemford Furistic School, I express my heartfelt congratulations and best wishes to all the respected parents, reversed staff members, dear students and all the well wishers.

It is about being part of a community, one which supports and understands the challenges and pressures that modern living can bring. We are proud of our students and what they achieve and share with them a pride in our school. We are a happy learning community, where learning is enjoyed and valued. We believe that we offer one of the best educational experience in the region.

"Good leaders create a vision, articulate a vision and passionately owns a vision and turn it into a reality" - Jack Welch.

determination, perseverance and hard work, would undertake any task entrusted to me by the school authorities and fulfill it in the best possible way.

Coming to the school newsletter, I expect full cooperation from my fellow students and peers. New ideas, new sections in the issue of SHEMFORD HAPPENINGS are always welcome by the Editorial Board. The editorial board is looking forward to make this newsletter a vehicle for students to express their innermost thoughts. I hope this newsletter on to become the "lingua franca" of our school.

Voga is very essential for everyone's healthy life.

Let's practice yoga daily which can give immunity to the body and help in balancing our mind & soul.

SCHOOL FIELDTRIPS

Education is not stress, it is recreation-mental, physical, spiritual. More so education is on-land experience, experience in lap of nature. With this thought in mind Shemford Futuristic School staff went for a experiential trip to patnitop.

Welcome Back to School!!

"School bells are ringing, loud and clear;
Vacation is over, school is here
We are glad that school has begun,
For work is always mixed with fun."

I have a GROWTH MINDSET!

I persevere when I am frustrated. I can always improve.

Mistakes help me learn.

I am inspired by people who succeed. I can learn anything that I want to.

My effort and attitude make all the differencel I like to challenge myself.

NATURE CONSERVATION

"Save nature and nature will save your life and Future"

A nature walk is an opportunity to learn about Mother Earth and appreciate and admire her many facets. It can be entire math, science, art and even language arts lesson accumulated into one. It builds confidence and promotes creativity and imagination in students. With this aim in mind students of Grade IX were taken out in the lap of Mother Nature to talk and discuss about the Topic:- "Nature Conservation".

World Nature Conservation Day was celebrated at Shemford Futuristic School, Jammu on 28th July, 2022. The objective of this celebration was to increase the awareness about protecting the natural resources that the Earth is bestowed with. It is high time that our present generation inculcates environment friendly habits to lead a green life style. In order to emphasize this, activities were initiated. Students presented slogans based on the nature conservation. It was followed by the oath taking by the students. Many students promised to alter their habits to help in saving the natural resources.

The difference was brought within the school itself. Our school also adopts various methods such as paper saving alternative is initiated, encourages the students to maintain the campus clean, the students are restricted to use plastic water bottles, recycling of water is being done, utilization and above all initiatives like planting more rare plants and trees is carried over.

WAYS TO BE A BETTER LISTENER

Learning anything new can be quite challenging. It can be easy to check out if you don't understand something. But little did you know it could be your personal habits that cause you to not get as much out of class as you or your teacher might like!

Fear not young student, here are some tips and tricks to listen better and have an easier time learning for both you and your teacher. *Cough cough*

- 1. EAT RIGHT AND GET ENOUGH SLEEP. This doesn't happen in class and it doesn't happen overnight. As the old saying goes, 'Breakfast is the most important meal of the day." And it's true. Sugar for breakfast does nothing for your focus AND if you are sleeping in class, you won't hear anything anyway. So eat a healthy diet and put that phone away at night. You'll sleep better and learn better.
- 2. COME PREPARED. Bring your supplies to class. Don't have any? Get some. There is a wonderful little stationary shop that has everything you'll ever need for class. Your teachers will not have extras, and it is not an excuse not to participate in activities. Make sure you have at least pencils, pens and paper for class.

- **3. STAY ORGANIZED.** This completely depends on you. But staying organized will help you to pay better attention. Some have separate notebooks for each class, others have specific places for old notes and new notes. However you decide to do it, stick with it. Color-coding notes helps also.
- 4. LOOK AT YOUR TEACHER. I know what you're thinking... 'My teacher isn't as good looking as Teacher Chris, Krissy, or Justin!' Doesn't matter, you should still look at them. If your focus in on your teacher or the board then your attention is less likely to wander. Try to avoid looking out the window or another students' doodle. And for the love of Pete, don't look at your phone! You'll only get distracted. Good listening begins with good watching.

5. SIT UP IN YOUR SEAT. It already looks like you're paying attention, right? Slouching in your seat makes you too comfortable and more likely to fidget. Not to mention makes your posture look awful. Do your future self a favor and sit up straight.

YELLOW DAY/MANGO DAY

Our little ones dressed up in yellow ready to recognise colors in the most fun way along with a lot of fun with friends!

Through this activity they learnt about the king of fruits- Mango!

ICE CREAM DAY

We all love | ice cream...

"Keeping the same in mind, we organized Ice Cream Day in the school and a visit to the Turkish ice cream parlor was organized for the students of Prep. Sr.

The children were overwhelmed with joy and were excited to see large varieties of ice creams of their choice which provide them freshness and relief on this humid summer afternoon. The children went home overjoyed and excited.

WORKSHOP ON MENTAL HEALTH AND WELLNESS BY DR.GURMEET KOUR (PSYCHIATRY & DE-ADDICTION EXPERT)

The secret of health for both mind and body is not to mourn for the past, worry about the future, or anticipate troubles, but to live in the present moment wisely and earnestly." - Buddha

With a saying like that, one would want to know if the wellness of the mind which is the emotional and mental health we are referring to is equally as important as the physical health.

Physical, Mental & Emotional Well-being workshops tackle two key areas of life that together make a huge difference in a young person's self-confidence, mental and physical health, academic potential and employability. We believe that children and young adults can, with support, learn to avoid bad habits and learn those life skills they need to turn themselves around.

Keeping in view the different challenges of Emotional & Physical Well-Being our school organized a workshop for the students of the classes 6 to 10 where students learnt how to keep balance among these important aspect of the life.

Workshop begin with the formal welcome address for our Honourable Guest Dr. Gurmeet Kour by the Academic Coordinator Ms.Sakshi Sharma, the key focus for the workshop was on the topic of how to tackle anxiety, manage relationships, emotions and thoughts, overcome disruptive behaviour disorders. The workshop was conducted under the key guidance of our school's pillar of strength, Mrs. Vijaypuri, Academic Director (SFS), Mam's positive attitude and immense knowledge have always kept us enlightened, Mam's dynamic approach have always kept us all updated. Finally the event got wrapped by a formal vote of thanks by Assistant Academic Coordinator Mrs. Ravinder Kour.

INTER HOUSE QUIZ COMPETITION

A Science and Maths Quiz competition, which can also be called a mind sport 'BRAIN SCRIBBLE' was organised in Shemford Futuristic School, Jammu for the students of grade V to grade X. It was an inter house competition. The objective of the competition was to encourage students to look beyond their textual knowledge and establish a relationship between theory and application of the learnt concepts which forms an important foundation for the intellectual building.

It also enhances thinking power & curiosity to explore among students. Common topics from the course were the base of the questions. The competition got intense as the questions scribbled the mind of the inquisitive dipsites and raised the spirit of young students. It was fun way to study and in the process helped and enabled students to think from different angles or simply 'to think out of the box'

The Elephant Rope

As a man was passing the elephants, he suddenly stopped, confused by the fact that these huge creatures were being held by only a small rope tied to their front leg. No chains, no cages. It was obvious that the elephants could, at any time, break away from their bonds but for some reasons, they did not.

He saw a trainer nearby and asked why these animals just stood there and made no attempt to get away. "Well," trainer said, "when they are very young and much smaller we use the same size rope to tie them and, at that age, it's enough to hold them. As they grow up, they are conditioned to believe they cannot break away. They believe the rope can still hold them, so they never try to break free."

The man was amazed. These animals could at any time break free from their bonds but because they believed they couldn't, they were stuck right where they were.

Like the elephants, how many of us go through life hanging onto a belief that we cannot do something, simply because we failed at it once before. Failure is part of learning; we should never give up the struggle in life.

कारगिल दिवस

देश में हर साल 26 जुलाई को कारगिल विजय दिवस मनाया जाता है | ये दिन जुलाई 1999 में कारगिल में पाकिस्तानी सेना के खिलाफ लड़ाई जीतने के लिए अपने जान की कुर्बानी देने वाले शहीद भारतीय सैनिकों के बलिदान का सम्मान करने वाला दिन है | आज से ठीक 23 साल पहले पाकिस्तानी सैनिकों और आतंकवादियों ने नियंत्रण रेखा (LQC) के साथ भारतीय क्षेत्र में बड़े पैमाने पर घुसपैठ शुरू कर दी | जम्मू-कश्मीर के Kargil जिले के पहाड़ी इलाके में पाकिस्तानी सेना के सैकड़ों जवानों और जिहादियों ने घुसपैठ की |

दरअसल, पाकिस्तान ने भारत के खिलाफ सैन्य अभियान की योजना बनाई थी | इस योजना को बनाने वालों में पाकिस्तान सेना के तत्कालीन प्रमुख जनरल परवेज मुशर्रफ और तीन अन्य जनरलों मोहम्मद अजीज, जावेद हसन और महमूद अहमद शामिल थे | कारगिल युद्ध की शुरुआत वैसे तो 3 मई को ही हो गई थी, क्योंकि इसी दिन आतंकियों ने घुसपैठ शुरू की | युद्ध की समाप्ति 26 जुलाई को हुई | इस तरह कुल 85 दिनों तक दोनों देश आमने-सामने रहे | हालांकि, भारत-पाकिस्तान के बीच असल युद्ध 60 दिनों तक चला, जिसे 'ऑपरेशन विजय' के नाम से जानते हैं. ऐसे में आइए कारगिल युद्ध की पूरी टाइमलाइन को जाना जाए ।
