SHEMFORD

FUTURISTIC SCHOOL

BIRPUR, JAMMU

WHERE EVERY
CHILD IS A

STAR

What does
SHEMFORD
stand for?

Message from the Management

Dear Parents

Thank you for considering SHEMFORD Futuristic School, one of the finest school for your child ! In this brochure, through words & pictures, we have tried to capture the real essence of our school.

The vision of SHEMFORD extends beyond the narrow walls of classrooms & textbooks. It is a world where each SHEMFORD Star undergoes meaningful & joyful learning, while being the center of our education system. Be it our stimulating environment, attractive interiors, innovative curriculum, engaging activities, fun-filled events, joyous celebrations, etc. - everything has been developed as per the interests, learning styles & capabilities of our SHEMFORD Stars. Therefore, it is no wonder that each child at SHEMFORD enjoys & gains from the learning process in our nurturing & encouraging environment and looks forward to school days more than holidays!

We provide a caring, supportive and positive learning environment for children where they gain a range of experiences, both inside and outside the classroom. We also encourage our children to identify their strengths & explore their talents, so that they can make the most of their skills and reach the highest standards. In our school, education is imparted to foster all- round excellence & also to instill in our children sound values, so that they emerge as young, confident & capable human beings.

We are confident that our wonderful system, combined with our dedicated and loving teachers will nurture your child and ensure that she is able to reach her true potential in her school years and in the years beyond that. We hope that you are as excited as we are, about your child's entry into the safe, secure and welcoming environment of SHEMFORD, where we convert each moment into a wonderful learning experience.

We look forward to uniting your family with ours and embarking together on a journey which is Exciting, Enriching & Rewarding !!

Best wishes for a successful & a Happy School Year !

Management

SHEMFORD FUTURISTIC SCHOOL

**MRS.VIJAY PURI
ACADEMIC DIRECTOR
SHEMFORD FUTURISTIC SCHOOL**

VISION

SHEMFORD aims to equip the child to take on the world with confidence and blaze a trail through life independently, by its innovative and path breaking endeavors in the field of true education.

Our Mission

To make learning creative, interesting, interactive and engaging through a system which is constructive, comprehensive, practical & FUTURISTIC!

OUR LOGO- The SHEMFORD Star

Each student enrolled in our school is called "SHEMFORDSTAR". Our logo represents the students in the school and remind us that we need to treat each student as a star.

The "arms" & "legs" of the logo represents the path our SHEMFORD stars take through their SHEMFORD years.

SHEMFORD VRIKSHA

PLAYGROUP TO U.K.G

SMALL STEPS FOR A BIG TOMORROW

SHEMFORD VRIKSHA ECLECTIC APPROACH

JUNIOR & SENIOR WING

OUR CURRICULUM

The Shemford System of Education values the child as a strong, capable and resilient individual, rich with wonder and knowledge. Every child brings with him deep curiosity and potential and this innate curiosity drives his interest to understand the world and his place within it. Our curriculum allows the child to reflect, solve, create, grow and most importantly, think. The core elements of the curriculum are as follows:

Problem Solving Skills

All subjects are dealt with using scientific approach of inquiry based learning that involves engaging visuals and presentation formats, and well-crafted activities to arouse the learner's curiosity. It taps into the procedural, manipulative, observational, drawing, reporting and interpretive skills of the learners, hence enabling them to better grasp the key concepts.

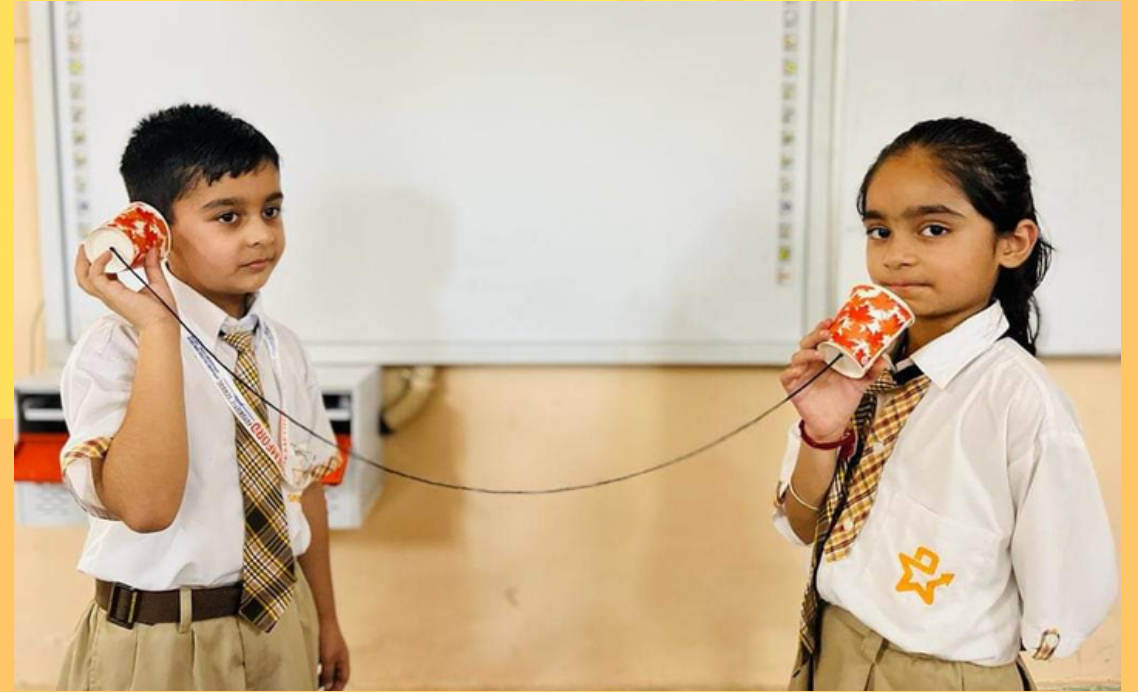

Inquiry Approach

All subjects are dealt with using scientific approach of inquiry based learning that involves engaging visuals and presentation formats, and well-crafted activities to arouse the learner's curiosity. It taps into the procedural, manipulative, observational, drawing, reporting and interpretive skills of the learners, hence enabling them to better grasp the key concepts.

Core Thinking Skills

Profound thinking skills require both imagination and intellectual ideas. To produce excellence in thinking we engage our learners in a curriculum that overlaps the logical and the imaginative. Our curriculum provides students with ample opportunities to practise higher order thinking.

Apart from this we at shemford believe in creating leaders for life. While academic excellence is emphasised at every level, the focus is placed on universal values, ethics, discipline, creativity and personality development in the initial years, before shifting to academic achievement, leadership and entrepreneurial skills, and key competencies for vocational and career progression during the secondary and high school years.

Personality Development

The importance of personality development during a student's early years cannot be understated. We are focused on cultivating various aspects of student development through a variety of well-designed programmes like critical thinking, sports, social contribution, self-expression and meditation. All these are stepping stones to a well-rounded personality of a student, and we put these foundations in place through our various programmes, initiatives and events.

Entrepreneurship & Leadership

Our programmes and events revolve around concepts of entrepreneurship and leadership among school children to help develop their skills. We invite experts and conduct bootcamps to give exposure in these concepts to our students. Interactive conversations and participation in these activities help students grow in confidence and speak passionately and authoritatively on subjects of their interest.

Universal Values and Ethics

Our emphasis is not just academic excellence, but we also nurture our students emotionally and spiritually. Through specific elements like peace included in our curriculum and encouraging activities like yoga, we teach students to imbibe good values to build character and treat everyone with respect.

Community and Care

Through a comprehensive programme, we give our students a chance to be out and about in the community and have social interactions which will help them bond with society at large. Charity drives, community event participation, green initiatives and conservation of resources are some of the methods we encourage among students to develop their emotional and spiritual well-being.

Life Skills:

As a school we place importance on children developing the skills they need to succeed in life along with all children achieving their potential academically. Along with the subject based curriculum each year group has a life skill curriculum which allows them the opportunity to develop and support the learning of these valuable skills. Whether it be learning to use a knife and fork or tying shoe laces, or learning to sew on a button or making a cup of tea the children will be given the opportunity to develop these life long skills.

Shemford INNOVATION CENTER - THEMATIC LEARNING PROGRAM

The Theme Based Approach is a way of teaching and learning, whereby many areas of the curriculum are connected together and integrated within a theme.

The activities and lessons focus on providing students with relevant, meaningful interactive, hands-on experiences. It is also important that the lesson plans and activities be related to real-life experiences.

The thematic units give a coordinated way to deal with educating and learning. Children are able to relate to real-world experiences and build on prior knowledge of a topic. Thematic units also help teachers by paving a way to facilitating learning for each child who has his/her own way of learning things.

A thematic way to deal with instructing includes incorporating every single branch of knowledge together under one subject. Themes help us to weave the design that brings in the structure to the whole of our approach. They intertwine the different methodologies which make the learning experience meaningful for the child.

Through the theme, children get to understand their own unique strengths, explore multiple ways of learning and also use the skills that they have been acquiring.

Through skilful planning the curriculum integrates into a framework that helps children to be introduced to life skills, academic skills, understanding one's own unique skills, critical thinking and ample of opportunities are provided for children to learn social, cognitive, emotional and physical development which are recognized as equally valuable assets which are reflected in our curriculum.

We believe that innovative thinking and creative outputs have no age limit, which is why we encourage these skills in our students. This gem is structured to nurture creativity and innovation in students by mapping their interest areas, identifying their competencies and facilitating their growth. It encourages students to explore and embrace creative, multi-faceted strategies when problem solving.

OUR TEACHERS MENTORS AND FACILITATORS!

Our teachers guide our SHEMFORD Stars and facilitate the teaching-learning process!

We have a highly motivated & professional team of facilitators who are dynamic, caring, dedicated & competent to teach our children with utmost patience and understanding. Moreover, our facilitators provide security & warmth to the children by creating a friendly atmosphere, in which they can express themselves freely. Further, the personalised & tender care shown by our facilitators stimulates the budding minds to explore, understand and appreciate the finer aspects of life.

Facilities @ SHEMFORD

SHEM SPORTS

A healthy body is the key to a healthy mind

At SHEMFORD, we believe that physical fitness in growing children, which is attained through activities, is one of the most important key to a healthy body and mind. Regular involvement of children in Sports sports activities contributes to their overall physical, cognitive & psychological wellbeing, Also games & sports activities infuse in children, a spirit of competition, honesty, co- operation and inner strength to accept victory as well as defeat. Moreover, children who are actively involved in sports get better grades as they are able to manage their time in a better way and can think strategically & make quick decisions. "ShemSPORTS" aims at instilling in our children, values like discipline, sense of responsibility sportsmanship, etc. , that last their lifetime and help shape them into respectable human beings. Moreover, through "ShemSPORTS", we engage our children into a wide variety of indoor & outdoor games and sports activities which leads to their physical development and support their complete growth as an individual.

HEALTHY COMPETITION

At SHEMFORD, we believe that competitions boost a child's enthusiasm for achieving goals, provide an opportunity to demonstrate will power & creativity and enhance perseverance for Overcoming challenges. Through contests & competitions, our children are encouraged to understand that hard work commitment lead to a greater chance of success.

At SHEMFORD, we promote healthy competition & foster a feeling of cooperation, team spirit & group pride in our children by organizing various competitions among our four houses namely, RIG, YAJUR, SAMA & ATHARVA

Continuing our endeavors' to make each SHEMFORD Star a winner, we aim to organize many activities in store, for creative and resourceful competition& contests in the near future.
