COLLABORATIVE LEARNING

Collaborative learning is an educational approach in which groups work together to improve learning. Learners collaborate to solve problems, complete tasks, or learn new concepts. It encourages students to actively participate in the processing of new information through group efforts rather than memorization techniques.

In this approach, students can defend their positions, reframe new ideas, listen to other people's points of view, articulate their points, and gain a better understanding of a subject. It will increase students' confidence, self-esteem, and higher-level thinking skills.

Keeping this approach in mind, let me throw some light on the benefits of collaborative learning.

1. Enhances problem-solving abilities

Collaborative learning projects frequently necessitate groups completing a task or solving a problem. The group must discuss and analyze various ideas to find the best solution. It can help students to develop their problem-solving skills.

2. Promotes social interaction

Students must interact as a team using eye contact, verbal communication, and social cues in collaborative learning. Learners practice and develop social skills such as active listening, empathy, and respect. They can form and maintain strong personal and professional relationships.

3. Enhances communication abilities

Collaborative learning relies on effective communication to complete a task by sharing ideas, explaining concepts, and providing clear and concise feedback. Students will get the opportunity to improve their written communication skills through group writing.

4. Encourages participation

All learners must actively participate in collaborative learning to achieve the team's goals. Passive learners will become more involved and productive with a positive attitude. To achieve their target.

5. Makes relationships

Collaborative learning can foster new friendships as well as strengthen existing ones. Team members get to know each other better as they work together on a project. This can result in more positive personal and professional relationships.

6. Co-operation and sharing

Individuals can learn to be more tolerant of one another through collaborative learning, and all members can successfully learn to share ideas through cooperation and encouragement

Hope this was beneficial for you all. Keep learning, keep growing!

Warm Regards,

Ms. Sahrish Ismaily

H.M Preprimary Message

At Shemford (Pre-Primary Wing) we believe that a child's growth is measured in smiles and achievement is quantified by contentment. In line with this our endeavor is to nurture a child's innate happiness through education that creates value and equips students with the wisdom to apply what they have learnt joyfully.

Students of Pre-Primary are encouraged to identify and develop their own means of happiness that they take forward into their lives beyond School. Aiding us in our mission is an invigorating learning environment complemented by the finest of facilities and faculty who ensure that students are provided with the right inputs at every level.

As a result of our holistic approach a child stepping out of our institution will not merely excel in his or her chosen career but will also succeed as a well-balanced and culturally enriched human being with a positive approach to life.

Chief Editor's Message

Winners are not born, but you can make yourself one

Life's a game, to be a winner you have to play to win. Everyone wants to win the game they are playing, but not everyone realizes their dream. The reason? It can be summed in Bobby Knight's words as: "The key is not the will to win — everybody has that. It is the will to prepare to win that is important."

No one is born a winner. All those who have got there worked hard for it.

Five ways to train yourself to be a winner at what you do, stand out and shine.

1. Cultivate a winning mindset

To become a winner and be a cut above the rest, you have to work inside out. Program yourself to succeed, wire yourself to excel.

2. Focus your mind on a single goal

There are many things you want to do, many goals you want to achieve. But you cannot work on all of them simultaneously.

3. Let go of the fear of failure

Most times, people fail to do all that it takes to succeed simply because their focus is not on how to win but what'll happen if they lose, what will people say, and how will they face the world.

4. Be phenomenal at what you do

It's a competitive world out there; only the best survive and win. If you aspire to be at the top of your game, you've got to be better than the rest.

5. Build on your mistakes

It's impossible to avoid mistakes in life. If you set out to try something, there's every possibility you won't get it right. Whether it's your first time or the nth time, there'll be a mistake somewhere — big or small — an error here, a folly there, or a lapse of judgment somewhere.

To become a winner, you have to come out on top. Every single time. And that means you continue growing, bettering yourself up, raising your standards, becoming tougher, and raising the bar higher.

Winning is not about performing well one time or having a chance success.

Winning is a mindset, a habit, a way of life.

World Environment Day

“The greatest threat to our planet is the belief that someone else will save it.” - Robert Swan.

To celebrate World Environment Day on 5 June 2023 students of Shemford Futuristic School participated in a range of online activities to mark the occasion. During their summer vacation, students from various classes engaged in activities that focused on the importance of environmental conservation and sustainability. The activities were designed to be both educational and fun, encouraging students to think creatively about ways to protect the environment. One of the popular activities was "Making Treasure from Trash," where students created an art piece using waste materials. The students' creativity was impressive as they skillfully transformed ordinary materials into beautiful pieces of art. Another activity was the creation of eco-friendly bird feeders that can attract birds in their garden. With this activity, students understood the importance of preserving and promoting biodiversity through small acts, like feeding birds.

The students also learned about the benefits of planting through the "Hanging Planters" activity, where they learned how to make their hanging herb gardens which can be used to beautify an area and provide a source of fresh herbs.

PUNCTUATION RULES

Full Stop

This is the most popular punctuation mark because you simply cannot write even a single sentence without using it. So, there are two most common uses of a full stop: to indicate the end of a sentence, or to follow an abbreviation.

Comma

A comma is often used to separate different ideas in a sentence. However, it has many other uses as well, and it is important to remember them as well. Some of the most common comma rules follow.

Question Mark

A question mark, as its name suggests, needs to go at the end of every interrogative sentence instead of a full stop.

Exclamation Mark

An exclamation mark added at the end of a sentence shows emphasis. Depending on the meaning of the sentence, it can indicate anger, happiness, excitement, or any other strong emotion.

Quotation Marks

As their name suggests, quotation marks indicate direct quotations. You can also use them to show that a word or a phrase is being used ironically, or for titles of articles, book chapters, episodes of a TV-show, etc.

Apostrophe

An apostrophe has two very important uses. Firstly, it can be used in contractions in place of omitted letters. Secondly, it can show possession.

Hyphen

Even though it looks very similar to a dash, a hyphen has very different uses. It's most commonly used to create compound words.

Dash

There are two different dashes, the en dash and the em dash, the first being slightly shorter than the second one.

The en dash is usually used to show a connection between two things, as well as a range of numbers, years, pages, etc.

Colon

A colon is a punctuation mark you will come across very often in different circumstances. It can introduce an example, a list, an explanation, or a quotation. Or, you can also use it to emphasize a certain point.

Semicolon

A semicolon is a punctuation mark that creates a longer pause than a comma but a shorter pause than a full stop. So, it can be used to create a pause between two independent clauses that are still closely related to each other.

Parentheses

In most cases, you will see additional information in parentheses. Usually, it can be omitted without creating any confusion for the reader.

Brackets

Brackets are, in a way, similar to parentheses. However, they are mostly used in academic writing and when presenting quotes. For instance, the writer can add extra information or fix mistakes in brackets, without changing the original quotation.

HARD WORK VS SMART WORK:
WHAT'S BETTER?

STOP WASTING YOUR TIME.

Learn to balance, **HARD WORK VS SMART WORK**

'Work smart, not hard,' we've all heard, but what exactly is smart work? We're often told that putting in the effort would help us attain our goals. Finding a balance between hard effort and smart work.

Working smarter, not harder, does not imply working less. It entails focusing your

efforts on the things that genuinely matter.

Hard work Vs Smart work is two distinct approaches to job completion. The industry aims and tastes may all influence the best method for you. When it comes to achieving the job objectives, comparing hard effort vs smart work might help to reach our goal.

For example, if your task is to coordinate a meeting between CEOs from six tech start-ups. The meeting needs to happen next week.

Hard method: You complete the task by yourself by creating an invite list, drafting emails and meeting agenda, inviting all required attendees, reserving a time slot that suits everyone, booking a convenient meeting venue, and organizing food while accommodating people's dietary restrictions.

The whole job should take you about eight hours, but you also have other minor responsibilities to take care of. All in, it takes you about two days to lock everything down.

Smart method: Use a previous event invitation as a template (or find one online), change the date, and update the guest list and agenda. In your invitation, request that they advise you of any dietary restrictions by the end of the day. As you await their responses, you can book the venue and update the meeting invitation after confirming the location.

"Hard work if used alone makes you tired but if you work hard along with smart thinking you will definitely touch the peak of success".

And pay for their good and bad,

नैतिकता पर संवाद

'आचारहीना: न पुनन्तिवेदा अर्थात् आचारहीन व्यक्ति वेद या ज्ञान की बात करें वह व्यर्थ है। मनुष्य वही है जो मनुष्य के लिए मरे, यह तो पशु प्रवृत्ति है जो अपना आप ही चरे। हमारी संस्कृति हमें यही सिखाती है। भारतवर्ष का जो मानसम्मान है और आज के युग में जो हमारी पहचान है वह कुछ और नहीं बल्कि नैतिकता ही है। हमारे नैतिक मूल्य हमारे रग-रग में समाए हुए हैं जिस प्रकार रूह के बिना जीवन असंभव है उसी प्रकार नैतिकता के बिना हमारा अस्तित्व असंभव है। हमारे नैतिक संकल्प हमें कठिन से कठिन राह पर भी अविचलित होकर आगे बढ़ते रहने की प्रेरणा देते हैं। प्रिय विद्यार्थियो अगर हम इतिहास के पन्ने पलटें तो ऐसे कई उदाहरण हैं जिन्हें आज भी सम्मान व प्रेम की दृष्टि से देखा जाता है वो चाहे मर्यादा पुरुषोत्तम राम हों, स्वामी विवेकानंद हों या सत्य व अहिंसा के पुजारी महात्मा गाँधी - "दे दी हमें आजादी बिना खडग बिना ढाल साबरमती के संत तूने कर दिया कमाल । " जो काम तलवारे व तोपें न कर पाई वह गाँधीजी ने अपने नैतिक मूल्यों और आत्म शक्ति के बल पर कर दिखाया। परंतु मुझे खेद के साथ यह कहना पड़ रहा है कि जिस नैतिकता के बल पर हम पूरे विश्व में इतराते फिरते हैं आज उसके पतन से मानवता के पतन का खतरा मंडरा रहा है। अनैतिकता जीवन में इस प्रकार घुल गई है मानो जीवन के लिए संजीवनी हों। आज के आधुनिक मानव ने सब कुछ पाने के लिए अपनी नैतिकता को बली बेदी पर चढ़ा दिया है। अनैतिकता की सीढ़ी चढ़ते चढ़ते पूरी मनुष्यता पर ही प्रश्नचिह्न लगा दिया है। आज हम एक विचित्र दौर से गुजर रहे हैं जब मूल्यों को एक विकृत रूप दे दिया गया है। व्यक्ति की आज़ादी ही आज आधुनिक काल की परिभाषा बन गई है। रिश्तो का महत्त्व मिटता जा रहा है, पारिवारिक बंधन कमजोर हो रहे हैं। वृद्धाश्रमों का कल्चर तेजी से पांव पसार रहा है। संवेदनहीनता की हद तो यह है कि अब ममता जैसी भावना के लिए भी जगह नहीं बची। भ्रष्टाचार, घपले-घोटाले, रिश्वत, कानून हीनता मानव जीवन के प्रत्येक विभाग में रच बस गई है। झूठ, धोखाधड़ी, मिलावट, कालाबाजारी आदि बुराइयों ने समाज में जो बिगाड़ पैदा किया है मानवता उसके नीचे कराह रही है। नैतिक मूल्यों से अलंकृत व्यक्ति उस झुके हुए फलदार वृक्ष की तरह है जो अपने फलों व छाया से सुख पहुँचाता है। मेरा तो मानना है कि नैतिकता से हीन व्यक्ति खजूर के वृक्ष की तरह है जिससे किसी को लाभ नहीं।

" बड़ा हुआ तो क्या हुआ जैसे पेड़ खजूर, पंथी को छाया नहीं फल लागे अति दूर " हमारे नैतिक मूल्य हमारे पूर्वजों द्वारा हमें दिए गए उस खजाने की चाबी है जिस खजाने में सफलता, यश, कीर्ति, प्यार, संस्कार, मेहनत, साहस, दया, सत्य, मानवता जैसे अलंकार भरे हुए हुए हैं। अतः प्रिय बच्चों आपको नैतिक मूल्यों की यह धरोहर समाज में प्रतिष्ठा दिलाएगी व सफलता आपके कदम चूमेंगी इसलिए उठिए, जागिए, और प्रण लीजिए वना वह दिन दूर नहीं जब इनके अभाव में मानवता का अस्तित्व खतरे में पड़ जाएगा। नैतिकता से ही अच्छे समाज व राष्ट्र का निर्माण होता है। अंत में इन शब्दों से इस संवाद का समापन करती हूँ।

सत्य अहिंसा को अपना मित्र बनाओ त्याग तपस्या, दया, धर्म, से अपना दिव्य चरित्र बनाओ, इन्हें आगे बढ़ाने की तकरी सारी धरती पर छा जाओ, याद करे जग युगों-युगों तक ऐसा कुछ करके दिखाओ।

अनुशासन का महत्त्व

अनुशासन से तात्पर्य है अपने आप को कुछ नियमों से बाँधे रखना और उसके अनुसार कार्य करना। अनुशासन द्वारा प्रत्येक व्यक्ति अपना पूर्ण विकास कर सकता है। अनुशासन में जीने का अपना आनंद होता है। अनुशासनहीनता जंगल में रहने के समान है। जंगली जानवरों में अनुशासन नहीं होता। उनका जीवन असुरक्षित और अव्यवस्थित होता है। जिसमें सबसे अधिक संकम होता है वही जंगल में राज करता है पर मनुष्यों में ऐसा नहीं होता है वे कभी इन्सानों की समान दृष्टि से देखते है और सभी नियमों का पालन भी करते है नियम में चलना ही अनुशासन कहलाता है इसलिए तो हर स्कूलों में विद्यार्थियों के लिए एक समान नियम बनाया जाता है सभी को अनुशासन की पाठ पढ़ाया जाता है और सीखाया जाता है ताकि उनमें सगुण का विकास हो। हर इंसान को अनुशासन में रहना चाहिए ये हर इंसान का धर्म है एक अच्छे नागरिक बनने के लिए उसमें अनुशासन का होना बहुत जरूरी है सभी देश विकास होगा।

تعلیم کا مقام اور اہمیت

تعلیم ایک اہم سمجھی جانے والی پیشہ

ورانہ کارگردگی ہے جو ہر انسان کی زندگی

کا اہم حصہ ہوتی ہے۔ یہ ایک عمل نہیں بلکہ ایک

منزل ہوتی ہے جو ہمیں ترقی، اختداک کی راہوں پر لے

چلتی ہے

تعلیم کی دعوت: ہمیں اپنی معاشرت میں

تعلیم کی اہمیت کو فمانے کی ضرورت ہے

اور اُسے پیشہ ورانہ اور علمی طریقے سے

فروغ دینے کی کوششک کرنی چائے۔ تعلیم کو

معمولی حکمت عملی کا حصہ بنانے کی

ضرورت ہے تاکہ ہماری نوجوان نسل آئندہ ک لیے

مقصوص تعلیمی مواکا کا فائیدہ اٹھا سکے۔
